

## Save on Program Fees with Referral Credits

*Know a builder who should be in AVODA Blue Tanzania?*

*Refer them and earn credits toward your tuition fees.*

### How Credits Are Earned

| Confirmed Referrals      | Credit Earned |
|--------------------------|---------------|
| 1 confirmed participant  | TZS 100,000   |
| 2 confirmed participants | TZS 250,000   |
| 3 confirmed participants | TZS 500,000   |

TZS 500,000 is the maximum referral credit available. No additional credits are earned beyond three confirmed referrals.

### When a Referral is Confirmed

A referral is confirmed when the person you referred has:

- Completed the official application form and indicated your full name as their referral
- Been accepted into the program
- Paid the required deposit to secure their seat

### How Credits Can Be Used

- Referral credits can only be applied toward the reduction of tuition fees
- Referral credits cannot be applied toward the deposit — the deposit is compulsory and must be paid in full before any credits are applied
- Credits are applied to the remaining tuition balance after the deposit has been paid

### Who Credits Belong To

- Referral credits belong to the person who made the referral, not the person they referred
- If the person making the referral is also a program participant, they may apply their credits toward their own remaining tuition balance
- Referral credits cannot be transferred to another person

### Important Notes

- Referral credits are not paid out in cash under any circumstances
- Credits are only activated once the referred participant has paid their deposit
- AVODA Blue Tanzania reserves the right to verify all referrals and adjust or decline credits where necessary

### Corporate and Institutional Sponsorship

Companies and institutions wishing to sponsor employees or teams into the program are not covered under the referral credit model. Please contact the AVODA Blue Tanzania team directly for special corporate packages.
